

Release Notes & Updates

January 31, 2022

These are the new features and updates for our (22.2) release.

If you have any questions about the items listed in this release, please visit [The Exchange](#) and leave a comment.

LMS (Trident)

LISTS

- Allow for more text for question answers on a quiz..

PRODUCTS

- Added an import tool so that the basic information of a product may be added to the system in bulk.

SALES

- Related to a recent feature which allows you to request additional customer data when a person registers for additional registrants; this will ensure the same registrant fields are required when the user is assigning those registrants at a later date and when you are doing a backend order for them. In the backend order, there will be a way to bypass as needed.

CATALOG APPEARANCE

- Updating the order of programs in the Credit tracker and on Complex Live Event message tokens to follow the order on the agenda.
- Adding enter key function to for submitting search parameters on catalog search page and customer account page

MISCELLANEOUS

- Adding arrow and enter key for navigation on popups for accessibility.

Full System

ACCOUNTS

- Fixed an issue where the Last Modified By was not displaying the correct user.
- Fixed an issue where an error would occur when adding or editing a date field in a customer's Custom Fields tab.

CATALOG APPEARANCE

- New setting added to Other Physical Products allowing Step 4, where Shipping Address is required, to be skipped.
- Added additional settings to Catalog for Credits and how they appear.

PRODUCTS

- Faculty now has access to answer Q&A via the Launch Q&A button directly in My List, under the product.
- In Product Snapshot, tenants now list if they are involved in other apps, not just the CE21 app.
