

Release Notes & Updates June 21, 2021

These are the new features and updates for our June 21, 2021 release.
If you have any questions about these or any features, please contact us at help@ce21.com

LMS

CHAT

- When chat is enabled, the setting to allow customers to mark posts as important has been defaulted On
- Updated the placeholder text in Chat when there are no posts

NOTIFICATIONS

- Added an After Completion option to email reminders

CATALOG

- Added a Launch button in the product details to the notification area if a customer has already purchased a product
- Updated the Copyright date to only display the year in the Recently Viewed widget

PRODUCTS

- Fixed the display of auto scheduled participation codes so that the correct time appears in the dialog when configuring the codes
- Fixed an issue when applying an offset to participation codes where the clock time was not displaying the correct time
- Added Suffix and social media fields when adding faculty that are not already in the system to a product
- Updates the tax schema on live events to charge the appropriate tax for the location of the event
- Added the ability to set archive availability in bulk for Classrooms/Virtual Conference
- Added a help bubble to the schedule display in Manager when Q&A has been enabled on a classroom component
- Added more information in the Course Type column in the schedule tab for classroom/virtual conferences

REPORTS

- Fixed an issue where an evaluation completion report export would have too many speaker tabs

SALES

- Added a requirement to add a person or product when using the Limit functionality in Discounts
- Fixed an issue where a swapped product was in a pending status when it was paid, not allowing the customer to access their certificate
- Updated Inventory rules and statuses
- Added a column chooser to the New Order process

AMS (Lighthouse)

MY ACCOUNT

- Added a Date Type filter on the Registration Report for Company Admins

GROUPS

- Fixed an issue where the enter group link was not taking members to the correct page
- Fixed issues where suspended members were not be reactivated properly

MARKETING

- Fixed an issue where column data would not appear in smart list results if the column was not used as part of the criteria
- Added the Date of Birth field to the list of criteria that can be used in Smart Lists and added the ability to search the data fields as well

Full System

ACCOUNTS

- Updated the search tool on the customer details page to include speakers
- Speaker records can now be merged from the Duplicate Accounts navigation

SETTINGS

- Added a new standard field, Additional CC Email, that can be added to profiles so an additional person can be cc'd on all email the customer receives
- Added drag and drop tools to values that can be added to radio button, dropdown list, and multi select fields

LISTS

- Updated the character limit for text area fields in Forms
