Release Notes & Updates

March 14, 2022

These are the new features and updates for our (22.5) release.
If you have any questions about the items listed in this release, please visit **The Exchange** and leave a comment.

LMS (Trident)

LISTS

- Quizzes - new message option to alert that the user has passed the test. The quiz results will stay the same and alert them that they've passed, but this new feature will allow you to provide an encouraging statement or image, etc whenever your users pass their quiz.

CATALOG APPEARANCE

- There is a new ecommerce setting now that you can select "Ecommerce settings: Show adjustment amount off on the receipts, in the shopping cart and user's transaction history". If you choose this, we will show the adjustment amount off as well as the price adjustment label on all receipts that the user sees so your users always remember the great deal they received!

PRODUCTS

- Using the Product Template, you can now create multiple of the same type of product using a new multi-select tool.

REPORTS

- Completion Report Column addition: "User Selected Credit Breakdown" column will show you not only what credit the user selected before downloading their certificate, but also shows how much credit they earned of that credit type, along with any approval codes or Expiration Dates.
- To the Discount Usage Report, we are adding several more columns to give you more information about the Registrants related to those Discounted purchases such as name, address, company and phone numbers.

AMS (Lighthouse)

GROUPS

- Added and updated filters on the Sales > Invoicing page.

ACCOUNTS

- Added a custom fields tab in company accounts in Manager.

REPORTS

- Added a new filter, "Today's Payment Status".
- Fixed an issue where an invoice ID link may open the wrong invoice in the Accounts Receivable report.

SALES

- Updated the message that appears when trying to use a discount to pay a group invoice.

Full System

CATALOG APPEARANCE

- We've updated the Catalog Alerts (found in Notifications) to include a setting to show to your users based on whether they are logged in or logged out. The default setting will be to show to everyone, unless you change it.

GROUPS

- Bug: fixed drag and drop for company based membership list in marketing.

PRODUCTS

- Add On product quantities now must match the same amount as the products purchased, as well as the registrants coinciding accordingly.

ACCOUNTS

- Added middle name to name column in duplicate accounts.
- Account Flags: Now called Account Tags, there is now a way to add an account tag from within the users' account, rather than having to create them first in the list area.
- Account page: Rearranged the top bit of the customer's account page to make it easy to gather some key details quickly, such as number of products bought over every year as well as the number of support tickets opened.
