

Release Notes & Updates

April 25, 2022

These are the new features and updates for our (22.8) release.

If you have any questions about the items listed in this release, please visit [The Exchange](#) and leave a comment.

Full System

HELP BUCKET

- In the Help Bucket, you can now search by Tags.
- Update Information button in Help Bucket now brings you back to the updated ticket, instead of to the ticket queue.

LISTS

- Added 5- and 10-star rating questions to forms.

PRODUCTS

- To make it easier to get back to a Classroom or Virtual Summit, we now have a button that will show up when your users have completed their certification steps that will take them back to the Classroom or Summit portal.

LMS (Trident)

PRODUCTS

- For archives on program, if you're not allowing credit on that archive, all of your registrants will be able to fast forward to skip to any part of the program regardless of their completion status. For programs that do allow credit on the archive, only completed registrants will be able to fast forward.
- Fixed issue so that shared in programs from the shared marketplace will use your viewer appearance, rather than the producer's viewer appearance settings.

CATALOG APPEARANCE

- In Classrooms and Virtual Conferences, there is an included Course tab on the product detail page that can now be hidden. This setting, found in the Portal Settings > Schedule area on the event, can be set to start showing only at a certain date and time (similar to the disable launch button). This allows you to sell the program before you necessarily have all of your modules built!

AMS (Lighthouse)

ACCOUNTS

- Updated the address layout when a member edits their addresses.
- Address block layout updates when viewing a customer's addresses in Manager.
- Updated the custom address blocks on question sets.

DONATIONS

- Added the ability for people to download an invoice for their donation.

REPORTS

- Added company employee information columns to the Companies report.

SALES

- Added a company name token to the invoice template.
