

Release Notes & Updates

May 23, 2022

These are the new features and updates for our (22.10) release.
If you have any questions about the items listed in this release, please visit [The Exchange](#) and leave a comment.

Full System

ACCOUNTS

- Updated the layout of the Customer Account page in manager.

CATALOG APPEARANCE

- The catalog now has the option for an Upcoming Live Programs widget to list the upcoming live events of your choice, for customers to see with easy access!

HELP BUCKET

- Help Bucket Issue History now has Views so users know how many views on each ticket, and will have access to it from the tool bar in Table View.

PRODUCTS

- Updated to the wording show to end users on the Zoom Polling completion statement to make it more clear.
- Fixed some issues with Live Event registration pop up window.
- Now Product Attributes that you create in Catalog settings can be incorporated into your certificates. Find them listed below your Custom Data Tokens.

AMS (Lighthouse)

GROUPS

- Notes will automatically be added to Accounts stating who made changes to the Customer's Membership Group, as well as the Customer's Payment Status.

SALES

- Added a billing cycle message token to the invoice template.
