

Release Notes & Updates

New Features and Updates for the (22.23) Release

Please check page 3 for a list of ALL our new features and updates.
Here are a few updates that we want to highlight. :-)

Directory Updates!

This release was a big code cleanup push, focusing on fixing defects for everyone rather than pushing out new features. However, there was one project we rounded the corner on that Braden is very excited to share with you! Company Directories!

Home Search Calendar Support Membership Directory Search Donations Bundles Gift Card

If you know who you are looking for, you can use the Keyword Search to search by name, email address, or company. If you are looking for someone near you, please use the Search Near Me to search a radius near a zip code or address. The additional filters will help you narrow your search.

This information can be updated from Appearance > Layout > Directory Search tab.

Right now this is the page for **both** the individual directory and the company directory.

Our new Company Directory will allow companies that are active in a company-based membership to be searched for and displayed.

Under Settings we have updated the original "Directory Settings" to "Individual Directory Settings" and added "Company Directory Settings" for you to set each directory up independently.

Employees

Succinctly, CE21 is all about learning. We are anchored by a desire to support organizations through their life cycle in a seamless and optimized way. We endeavour to listen and learn from you and translate those lessons into technology that delivers high valued educational content to members and customers in a versatile and effective manner

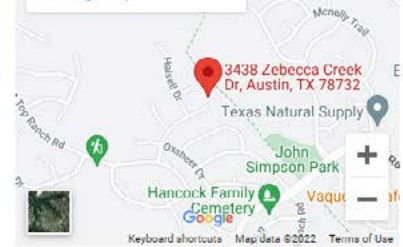

CE21 was created to solve many of the prolonged issues that have negatively impacted associations and non-profit organizations for years. We built a cloud-based Learning Management System (LMS) and Association Management System (AMS), and combined them into one platform providing distance education and membership management solutions that meet the changing needs of organizations like yours. This naturally evolved into our Event Services offerings, which supports you through the spectrum of in-person, hybrid, and virtual events. In the end, it's about delivering technology that is intuitive and user-friendly.

The Company Directory has a bonus feature that allows you to choose to display an employee list for end users to see a company's employees. This will appear in the details page of the search results.

The screenshot shows the 'Directory' page with a modal window titled 'Employees' overlaid. The modal lists five employees, each with a placeholder for a photo and their name: Braden Davis, Clint McBride, Lisa Wise, Kevin Hodges, and Braden Davis. The background shows the company details from the previous image, including the logo, contact information, and a table with company statistics.

Release Notes & Updates

New Features and Updates for the (22.22) Release

If you have any questions about the items listed in this release, please visit [The Exchange](#) and leave a comment.

FULL SYSTEM

ACCOUNTS

- Fixed issue with resetting password via SMS.
- Added the ability to sort by first or last name in a company's Employees tab in the manager.
- Added a column for Account Tags in the company > Employee tab in the manager.

HELP BUCKET

- Update to the Help Bucket so that when you @ a CE21 staff member, you will now see if they are out of office.

LMS (Trident)

ACCOUNTS

- Updated the tool when you're emailing your speaker that will allow you to attach it to a program they're a speaker on OR a course that they are just a registrant for.
- Updated Customer Message section within a product so that you can now add links.

CATALOG APPEARANCE

- Fixed the search page to include the total credits if that is a field you use on your product.
- Fixed the new Upcoming Live Programs widget to include the total credits if that is a field you use on your product.

NOTIFICATIONS

- Fixed Contact Information message token on email templates.

PRODUCTS

- Related Products: Video PopUp - Fixed some issues with adding to the shopping cart and created a spot to edit the message that is presented with the product in the video pop up message.
- Fixed an issue with timezones and agenda items where the event is in a different timezone than your catalog.

REPORTS

- Registration Report update: If you enter the program name, it will no longer require a start or end date.
- Catalog Settings > Order Attributes: You can now set these to appear on your Registration or Product Sales report.

VIEWER/PRESENTER

- Fixed issue with duplication that was ignoring the Viewer settings duplication being unchecked.
- Fixed issue in Viewer related to users selecting their credit.

AMS (Lighthouse)

DIRECTORY

- We have released our Company Directory - check out the highlights!

GROUPS

- When you are editing an invoice and add a note that note will now show on your edited invoice.
- Added a prorating option to the fixed rate for employee in company based memberships.
