

CE21 Lighthouse is the pinnacle of the Membership Management Suite experience. Designed to be the most powerful and affordable membership management system accessible to any association, regardless of size or budget, Lighthouse empowers your staff to deliver on your association's mission. Combining our Award-Winning LMS with robust tools has created a seamless experience for your members, staff, and other stakeholders.

One login for both staff and members

Streamline and simplify the experience with our cloud-based platform that allows automation while integrating with your website through Wordpress

Flexible Membership Features

Offer a range of professional and company-based memberships that meet the diverse needs of your organization including automated membership renewals with our recurring payment and credit card vaulting features

In-House Customer Support

Committed to providing the best customer experience, our support team is designed to be an extension of your staff

Mass Email Marketing Tool

Allows you to create, send, optimize, and report on your email campaigns from within the system

CE21 also offers:

Certification and credit tracking

Create, market, and deliver your fully customized CE programs with our various certification tools and automatic certificate distribution, which are accompanied by robust reporting and customer service tools.

Bridging Live and Virtual Events

CE21 can help you record and stream your in-person events, host events that incorporate in-person and virtual components, and host a fully virtual conference, all with robust accreditation features.
